

Sample School Concussion Management Form

The Return to Learning (RTL) and Return to Physical Activity (RTPA) Plans have been developed in partnership with Parachute and are based on the most recent research and recommendations of the expert scientific community on concussion, that is the Canadian Guidelines on Concussion in Sport, July 2017 and the Berlin Consensus Statement on Concussion in Sport, October 2016.

The School Concussion Management Form (Return to School Plan) is for parents/guardians and the school Collaborative Team to communicate and track a student's progress through the stages of the Return to Learning and Return to Physical Activity plans following completion of the Home Concussion Return to School Plan for Return to Learning and Return to Physical Activity. The RTL and RTPA plans are used with the Concussion Protocol.

Background Information on the Concussion Recovery Process

A student with a diagnosed concussion needs to follow a Return to School Plan which includes an individualized and gradual Return to Learning (RTL) plan and Return to Physical Activity (RTPA) plan. In developing the Return to School Plan, the RTL process is designed to meet the particular needs of the student, as there is not a pre-set plan of strategies and/or approaches to assist a student returning to their learning activities. In contrast the RTPA plan follows an internationally recognized graduated approach.

The management of a student concussion is a shared responsibility, requiring regular communication, between the home, school (Collaborative Team) and sport organizations with which the student is involved and registered with consultation from the student's medical doctor or nurse practitioner and/or other licensed healthcare providers (for example, nurses, physiotherapists, chiropractors and athletic therapists).

There are two parts to a student's RTL and RTPA plan. This first part occurs at home and prepares the student for the second part which occurs at school. The school part of the plan begins with:

- A meeting with the principal/designate to provide the parent(s)/guardian(s) information on:
 - the school part of the RTL and RTPA plan
 - the Collaborative Team participants and parent(s)/guardian(s) role on the team
- A student assessment to determine possible strategies and/or approaches for student learning

The home stages of the Return to School Plan for RTL and RTPA (Initial Rest to Stage 2 for RTS and Initial Rest to Stage 2b of RTPA) focuses on a student's progression through the home stages of the RTL and RTPA plan. It has been designed to provide direction for, and documentation of the stages of the RTL and RTPA plan.
